OR

1 fruit /1 bottle amulcool **(not an option for diabetics)**/1 cup greek yogurt

OR

1 high fiber cracker/1 digestive biscuit /1 Multigrain toast **(can apply peanut butter/ hummus)**

V. LUNCH & DINNER

Lunch and dinner are the two main meals that should never be skipped. In-order to have a complete select options from the following 3 groups:

(A) VEGETABLE GROUP: Vegetables are rich and cheaper source of vitamins. Consumption of these items provides taste, palatability, increases appetite and provides fiber for digestion and to prevent constipation.

(CHOOSE ANY TWO OPTION FROM THE FOLLOWING)

1 bowl healthy fresh green salad without creamy dressings (use mustard, lime, olive oil, vinegar)

OR

1 bowl fresh vegetable soup [avoid soups loaded with cream and noodles – in such cases go for half the portion]

OR

1 bowl green curry/ sabji (Add potato occasionally, if heavy gravy then have 1 katori only)

OR

1 bowl vegetable stir fry/ steamed/sautéed in olive oil or minimal butter.

(B) PROTEIN GROUP- A good quality protein source ensures you keep your muscles, bones, skin and hair intact even after having undergone weight loss. Never miss the protein source from your main meals.

(CHOOSE ANY ONE OPTION)

1 bowl dal/Sambhar/Rassam

OR

1 portion paneer (40 g) / tofu (40 g)

OR

1 bowl curd / veg raita / 1 glass buttermilk / 1 bowl Kadhi

OR

1 bowl Pulse / Sprouts/ 1 katori hummus

(C) CEREAL & GRAIN GROUP- A healthy cereal forms the base of your thali
(CHOOSE ANY ONE OPTION)

1 Paratha **(plain or stuffed)** / Roti **(Wheat roti/ multigrain roti)/ Bhakri (Jowar/ Bajra)**

OR

1 bowl **(white rice / daliya/ quinoa/ couscous) (Brown rice as per liking)**

OR

2 Idlis / 1 dosa / 1 uttappam / 1 pesarattu/ 1 appam **[refer recipe]**

OR

1 slice Multigrain bread / whole wheat pita

OR

1 bowl whole wheat pasta made in red sauce / whole wheat noodles **[refer recipe]**

SPECIAL DINNERS (once a week)

1. IN ORDER TO MAINTAIN WEIGHT, FOLLOW THIS OPTION (“ONCE IN A WEEK”)

1 bowl salad / green sabji (**low in oil**) + 1 bowl dal/pulse (**low in oil**) + 1 glass buttermilk [**refer recipe**]

OR

1 bowl salad / stir fry/veg soup + 1 portion paneer/ tofu (**40gms**) (**cooked in your style**) [**refer recipe**]

2. IN ORDER TO MAINTAIN WEIGHT, FOLLOW THIS OPTION (“ONCE IN A MONTH”) “Salt- Free”

1 bowl fruit yogurt parfait/ Chia bowl [**refer recipe**] + 1 sweet potato (**add lime & Sprinkle paprika & herbs**)

OR

1 bowl Ragi porridge / Oats porridge [**refer recipe**] + 1 Cucumber (**Add lime. Sprinkle paprika & herbs**)

OR

1 bowl fresh fruits + 1 cup greek yoghurt

VI. BEVERAGES

(CHOOSE ANY OPTION MAXIMUM TWICE A DAY)

Beverages like tea can boost exercise endurance. Catechins found in green tea extract increases the body's ability to burn fat as fuel which accounts for improved endurance performance. Drinking tea could help reduce the risk of heart attack.

1 cup Coffee (**latte, cappuchino, normal**) / 1 cup Green tea/1 cup Regular Tea/1 cup Chamomile tea / 1 cup Organic India tea (**add one tsp of sugar if needed**)

Cheat Meals

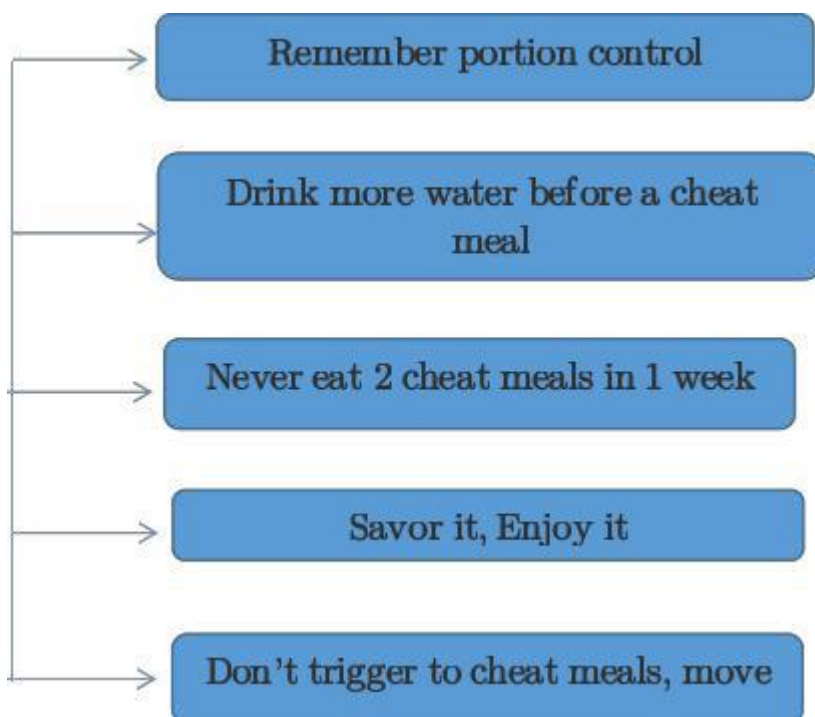

"A cheat meal is high in calories and all macronutrients (protein, carbs, and fat) and is not something that would normally be part of a proper diet plan,"

Pick a day of the week that will be designated as "cheat" day and stick to it. If you don't, and just abide by what you're feeling or craving, you're way more susceptible to craving every other day. Also, you need to remember that cheat meals are meal replacements. They need to fit into your current eating regimen, and aren't meant to be a day-long gorge fest where you eat twice. Cheating should be an option only once a week and in the correct "Portion Size". Otherwise you are putting yourself in danger of not getting the results you deserve.

Maximize the weight loss benefits and minimize the damage while eating the food you crave. For example, a slice of pizza with a regular soda and then a serving of ice cream is a good cheat meal. Not 4 pizza slices, chased down with gallon of soda and ice cream.

"Do not stress over the macros of cheat meal, Instead eat a properly portioned and balanced meal"

Basic rules for a cheat meal:

**THE CHEAT SHEET- REMEMBER, IT IS NOT A STUFFING
SESSION!
SO,
CONSUME ANY TWO OF THE FOOD ITEMS ONLY ONCE A
WEEK!**

BENEFITS OF DETOX DIET

Detox is like hitting a reset button for your body. It will help to increase your energy levels, balance your hormones, improve digestion, give your adrenals a much needed break and helps to break the plateau.

1. Green Tea

Green tea contains antioxidants and polyphenols which helps to burn fat by using it as a source of energy instead of storing it and boosts your metabolic rate.

2. Papaya & Watermelon

Papaya is low in sodium thus preventing retention of water. In simple words it means, it helps to throw out the excess water. Papaya helps in preventing constipation and aids in digestion. Watermelon acts as a diuretic & is a rich source of potassium which helps in maintaining fluid balance, and keeping your brain, nerves, heart, and muscles functioning normally on a constant basis.

3. Vegetables & Sprouts

Vegetables are rich in fiber & vitamins. It helps to provide a feeling of fullness with fewer calories. Sprouts are rich in proteins, vitamins and minerals. Sprouting increases the vitamin C content by 3 times.

4. Wheat grass powder & aloe vera juice

Wheat grass powder contains 70% chlorophyll which stimulates your metabolism and reduces your appetite. It also naturally detoxifies the liver by pulling out the waste materials from the blood stream and aids in digestion too. Aloe vera juice is rich in B complex vitamins. It helps to maintain blood glucose level. It helps the intestine & lubricates the digestive track.

5. Cinnamon Powder

Cinnamon powder reduces fat build up by breaking down and using them as a source of energy rather than storing them in the body. It also helps to relieves pain in PMS and balances hormones in women.

METABOLIC ENHANCER

(FOLLOW THIS DIET ON ANY ONE DAY IN THE WEEK AS PER YOUR CONVENIENCE)

START YOUR DAY WITH : 1 glass coconut water and a handful of nuts. **(Any unsalted nuts)**

OR

1 glass warm green tea.

MID-MORNING : 1 bowl fresh fruit of your choice. **(Sprinkle cinnamon powder)**

LUNCH : 1 bowl Steamed vegetables + 1 jowar roti + 1 katori dal **(no salt - use vinegar, lime, amchur)**

EVENING SNACKS: 2 tsps flax seeds + 1 MUG of green tea/ jasmine tea.

EAT-IN-PORTIONS

We always believe the key to weight loss and disease management is to eat foods that are HEALTHY and LOW CALORIE.

But somehow it has not worked out well and we fail to achieve desired results. So what do we do? Most of us give up on seeing little or no difference and get back to our old eating habits and lifestyle.

Well it's not about just eating healthy low calorie food. There is another 'mantra' which needs our attention and that is '**PORTION SIZE**'.

A portion size means eating the right amount/quantity of food as per the requirement of the body to attain its ideal weight according to the height and body type.

Here is where things go wrong.

As was said 'WHAT you place on your plate reflects your body size' should be re written as

'WHAT and HOW MUCH you place on your plate reflects your body size'
SIZE MATTERS...EVEN WHEN IT COMES TO PORTIONS OF FOOD

5 cups
270 calories

Tub
630 calories

3-inch diameter
140 calories

5-6-inch diameter
350 calories

333 calories

590 calories

Original 8-ounce bottle
97 calories

20-ounce bottle
242 calories

Think twice before UPSIZING your meal, it may save you some money but it will certainly add a few pounds to the body.

EATING HEALTHY FOODS DOES NOT MEAN EATING AS MUCH AS YOU WANT

At **BALANCE NUTRITION**, the core of our program is built around a very systematic and scientific approach. It is called EAT IN PORTIONS.

Through this, you are taught to eat in portion sizes that are required by you as per your goal during ACTIVE phase of the programmer. Our weight loss experts along with KHYATI RUPANI have come up with after a lot of research this module.

Various household measures like teaspoon, katori and glass are used to define your intake of particular foods including even the most basic items like salt, tea and fruits.

It is extremely simple, easy to follow, not time consuming and has a great impact on your body weight and structure.

Please find attached your personalized diet chart. Images of an ideal katori, bowl, etc. are provided so there is no ambiguity in the size of your food portion and the one recommended by us.

It has been very successfully used by clients across all countries and the all have benefitted from it immensely.

PORTION SIZE - A STEP TO PERFECTION!

Here are the portions mentioned below that you shall see often in your diet chart. Please ensure you use the measures/volumes based on this chart only.
